What to Bring

Make sure that your scouts and adults are wearing proper clothing to this event, we would like to keep our medical tent as empty as possible this year. It is going to be cold which means you should be wearing layers - when you get hot you take off a layer and so on. You also need to make sure that you are situated with a food plan for your troop, the OFP has kindly agreed to offer lunch at the Klondike to those Troops that would like it. Your scouts **MUST** bring a water bottle to hydrate, and speaking of water remember your rain gear. The most important piece of equipment you will need is your Troops sled - please make sure it is “up to the challenge”.
